MED 655 - COURSE INFORMATON							
Course Title Code Semester L+P Hour Credits ECTS							
Cardiology (Clinical internship) MED 655 Phase 6/11-12 120 5 5*							

* ECTS credits are the university credits of the courses in Yeditepe University, Faculty of Medicine, Undergraduate Medical Education Program

ects credits are the university credits of the courses in feditepe oniversity, racuity of Medicine, officergraduate Medical Education Program						
	GENERAL INFORMATION					
his course is for Phase VI students of Yeditepe University Faculty of Medicine.						
Prerequisites	Obligatory (main) courses of Phase V should be completed.					
Coordination Office	Yeditepe University Hospital.					
Email address for inquirie	mdegertekin@yeditepe.edu.tr					
Attendance	Students are required to attend to at least 80% of the classes.					
Language of Instruction	English					
Course Level	Second Cycle including First Cycle Degree (One Tier Programme)					
Course Type	Elective course					
Course Coordinator	Olcay Özveren, MD. Prof.					
Lecturers/Instructors	Olcay Özveren, MD. Prof. Taylan Akgün, MD. Prof. Ayça Türer Cabbar , MD. Assoc. Prof. Songül Akkoyun, MD. Canan Elif Yıldız, MD. Emine Alpay, MD.					
Assistants						
Goals	The aim of the elective course is to equip the intern with enriched knowledge and skills in the preferred medica specialty.					
Content	The elective internship is a 1 month rotation for the 6th year medical students which has been choosen by the students from the area elective courses in the curriculum. Like the other rotations, evaluation of students performance will be based on overall clinical performance both in hospital and outpatient clinics, case papers, the attitudes toward patients, participation in seminars and overnight calls, regular attendance at scientific meeting lectures and case conferences, the level of scientific and practical knowledge and consulting skills. Ratings of student recorded with required projects and will be performed as "passed "or "failed" with an overall evaluation score of 100.					

COUR	COURSE LEARNING OUTCOMES							
At the end of this course, student should be able to	Program Learning Outcomes	Teaching Methods	Assessment Methods					
explain the management principles of most frequently encountered health conditions (healthy, clinical, public, environmental, forensic, etc.).	1.1.1 , 1.1.2, 1.1.3, 1.1.4, 3.1.2, 3.1.3, 3.1.4	1	А					
show/demonstrate clinical skills and attitude required to manage most frequently encountered health conditions (healthy, clinical, public, environmental, forensic, etc.).	1.1.6, 1.1.7, 1.1.8, 2.1.1, 2.1.2, 2.1.3	1	А					
Collaborate effectively with multidisciplinary teams in the care of cardiovascular patients, including communication of findings and participation in clinical discussions.	2.4.1, 2.4.2, 2.4.3, 2.5.1 , 2.5.3	1	А					
Able to actively advocate for the protection and improvement of individual and community health by understanding the concepts of social accountability and social responsibility.	2.2.1, 2.2.2, 2.2.4	1	А					
Able to effectively manage their own learning and career development by continuously acquiring, evaluating, and integrating new knowledge with existing understanding, applying this knowledge in professional contexts, and adapting to evolving healthcare environments. Additionally, they will be able to identify and utilize appropriate learning resources to enhance the quality of healthcare delivery.	3.2.1, 3.2.2, 3.2.3	1	А					

	1. Clinical Experience (Learning environments: Inpatient clinic, Outpatient clinic, Operating

COURSES CONTRIBUTION TO PROGRAM							
COMPETENCE AREA-1 / Professional Practices	Cont	Contribution					
COMPETENCE 1.1. Health Service Provider	1	2	3	4	5		
Competency 1.1.1. Integrates knowledge, skills, and attitudes acquired from basic and clinical medical sciences, behavioral sciences, and social sciences to provide health services.					х		
Competency 1.1.2. Demonstrates a biopsychosocial approach that considers the individual's sociodemographic and sociocultural background without discrimination based on language, religion, race, or gender in patient management.					х		
Competency 1.1.3. Prioritizes the protection and improvement of individuals' and community's health in the delivery of healthcare services.					х		
Competency 1.1.4. Performs the necessary actions in the direction of maintaining and improving the state of health as considering the individual, social, social and environmental factors affecting health.					х		

Competency 1.1.5. Provides health education to healthy/ill individuals and their families, as well as to other healthcare professionals, by recognizing the characteristics, needs, and expectations of the target audience.					
Competency 1.1.6. Demonstrates a safe, rational, and effective approach in the processes of protection, diagnosis, treatment, follow-up, and rehabilitation in health service delivery.				х	
Competency 1.1.7. Performs interventional and/or non-interventional procedures safely and effectively for the patient in the processes of diagnosis, treatment, follow-up, and rehabilitation.				х	
Competency 1.1.8. Provides healthcare services considering patient and employee health and safety.					x
Competency 1.1.9. Considers changes related to the physical and socio-economic environment at both regional and global scales that affect health, as well as changes in the individual characteristics and behaviors of those who seek healthcare services.					
COMPETENCE AREA-2 / Professional Values and Approaches	Contr	ibution			
COMPETENCE 2.1. Adopting Professional Ethics and Principles	1	2	3	4	5
Competency 2.1.1. Considers good medical practices while performing the profession.					х
Competency 2.1.2. Fulfills duties and obligations within the framework of ethical principles, rights, and legal responsibilities required by the profession.					х
Competency 2.1.3. Demonstrates determined behavior in providing high-quality healthcare while considering the patient's integrity.					х
Competency 2.1.4. Evaluates own performance in professional practices by considering own emotions and cognitive characteristics.					
COMPETENCE 2.2. Health Advocate					
Competency 2.2.1. Advocates for the improvement of healthcare service delivery by considering the concepts of social accountability and social responsibility in the protection and enhancement of community health.				х	
Competency 2.2.2. Plans and implements service delivery, education, and counseling processes related to individual and community health, in collaboration with all stakeholders, for the protection and improvement of health.			х		
Competency 2.2.3. Evaluates the impact of health policies and practices on individual and community health indicators and advocates for the improvement of healthcare quality.					
Competency 2.2.4. Gives importance to protecting and improving own physical, mental, and social health and takes necessary actions for it.			х		
COMPETENCE 2.3. Leader-Manager					
Competency 2.3.1. Demonstrates exemplary behavior and leadership within the healthcare team during service delivery.					
Competency 2.3.2. Utilizes resources in a cost-effective, socially beneficial, and compliant manner with regulations in the planning, implementation, and evaluation processes of healthcare services as the manager in the healthcare institution.					
COMPETENCE 2.4. Team Member					
Competency 2.4.1. Communicates effectively within the healthcare team and takes on different team roles as necessary.					х
Competency 2.4.2. Displays appropriate behaviors while being aware of the duties and responsibilities of healthcare workers within the healthcare team.					х
Competency 2.4.3. Works collaboratively and effectively with colleagues and other professional groups in professional practice.					х
	i .	1	1		1

COMPETENCE 2.5. Communicator					
Competency 2.5.1. Communicates effectively with patients, their families, healthcare professionals, and other occupational groups, institutions and organizations.				х	
Competency 2.5.2. Communicates effectively with individuals and groups who require a special approach and have different sociocultural characteristics.					
Competency 2.5.3. Demonstrates a patient-centered approach that involves the patient in decision-making mechanisms during the diagnosis, treatment, follow-up, and rehabilitation processes.				х	
COMPETENCE AREA-3 / Professional and Personal Development	Cont	ributio	1		
COMPETENCE 3.1. Scientific and Analytical Approach	1	2	3	4	5
Competency 3.1.1. Plans and implements scientific research, as necessary, for the population it serves, and utilizes the results obtained, as well as those from other research, for the benefit of the community.					
Competency 3.1.2. Accesses and critically evaluates current literature related to their profession.				х	
Competency 3.1.3. Applies evidence-based medicine principles in the clinical decision-making process.				x	
Competency 3.1.4. Uses information technologies to enhance the effectiveness of healthcare, research, and education activities.					х
COMPETENCE 3.2. Lifelong Learner					
Competency 3.2.1. Manages effectively individual study processes and career development.				х	
Competency 3.2.2. Demonstrates skills in acquiring, evaluating, integrating new information with existing knowledge, applying to professional situations, and adapting to changing conditions throughout professional career.				х	
Competency 3.2.3. Selects the right learning resources to improve the quality of health care and organizes the learning process.					х
